

White Pages Information Manual *(Complete)*

SECTION I

This section contains the procedures for processing white page directory requests for changes in listed names, additions or deletions of listings, changes to listing sequence, or changes in the free classified Yellow Pages headings (SRL).

White Pages Procedures

General

In order to provide service to the National Yellow Pages Advertising client, CMRs may process White Pages directory requests for changes in listed names, additions or deletions of listings, changes to listing sequence, or changes in the free classified Yellow Pages heading (SRL).

The Local Search Association™ (LSA™) White Pages Listing Request form (WP-3235) is used to make changes for both local and foreign listings, including 800 numbers. These forms may be obtained through LSA.

Publishers may have their own internal processes; however, these should in no way impact the CMRs request via the WP-3235 form. It is in the best interest of the Publisher to process the CMRs request timely, efficiently, and accurately so the national clients advertising is not placed in jeopardy.

Background

Publishers act in different capacities.

- **A Publisher may also be a telephone company.** In this capacity, there may be special regulations that apply because of Federal and/or State regulations. For example, a Publisher may require that a White Pages Regular Listing be established with their company before an order for a Bold White Pages Listing is accepted.
- **A Publisher may be an agent for a telephone company and publish directories on their behalf.** The telephone company in these cases generally retains control and regulation over the White Pages Directory Listings and generally requires the establishment of a Regular White Pages Listing.
- **A Publisher may not be affiliated with a telephone company or be an agent for one.** Their sole purpose is publishing a directory. These publishers will insert both Regular and Bold White Pages Listings via the National Yellow Pages Order (NA-2000) without the prior establishment of a Regular White Pages Listing.

LSA White Pages Information Manual

A CMR should check the LSA White Pages Information Manual to determine individual Publisher requirements before submitting White Pages information. This manual can be downloaded by visiting www.localsearchassociation.org. The manual is listed alphabetical by Publisher name and provides the addresses for sending WP-3235 forms and identifies how a Publisher wants to receive the information.

White Pages Preparation (WP-3235)

Definitions

Local Listings

A White Pages Listing is considered local when it appears in the coverage area designated by the Publisher. This is usually the area in which telephone service is provided.

Foreign Listings

A White Pages Listing is considered foreign when it appears in a directory that is not a part of the normal coverage area for that directory. All 800 numbers are considered foreign listings.

To verify the status of a listing, the directory coverage should be referenced in the LSA Rates & Data™ products. If the town is not listed for the directory where the telephone number is located, this would indicate the listing is foreign. For example, if a customer in Grand Rapids, Michigan wants to advertise in the Detroit, Michigan directory the coverage area for Detroit is:

Allen Park, Dearborn, Dearborn Heights, Delray, Ecorse, Grosse Pointe, Hamtramck, Harper Woods, Inkster, Lincoln Park, Melvindale, River Rouge.

Since Grand Rapids is not listed under the towns covered by Detroit, Grand Rapids would be considered a foreign listing.

Time Frames

The Publishers' internal processes may require the preparation of several additional forms as well as contacting different business offices, departments, or companies; therefore, the following time frames must be observed:

- The WP-3235 form must be received by the Publisher 30 days prior to the close date of the directory involved.
- A confirmation copy of the CMR request must be sent to the CMR no later than 10 calendar days from receipt of the original WP-3235. If the CMR has not received the confirmation within 15 calendar days, they should contact the Publisher. (Follow up should be made earlier if a directory is closing immediately.)

Rates for White Pages Listings

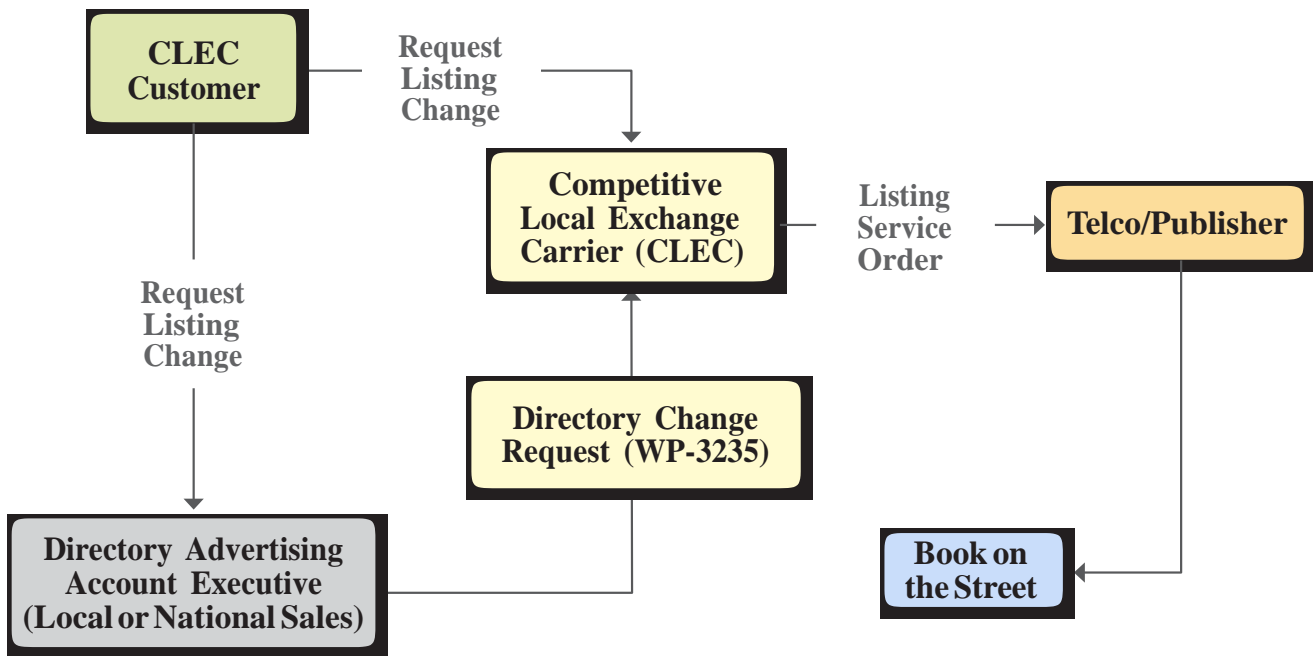

Many Publishers charge both a monthly rate for listings and a service charge for the paper work involved in establishing the listing.

Some Publishers charge for the full term of the directory even if the listing is removed prior to the expiration date of the directory. Other Publishers will not charge for the full directory term if the telephone number is terminated and there are no transfer of calls.

The rates for White Pages Listing advertising can be found in the LSA Rates & Data. To determine any additional service fees the individual Publisher’s business office should be contacted.

Competitive Local Exchange Carriers (CLECs)

Due to the federal deregulation, the White Pages listing process has become increasingly complex due to the increase in competition with competitive local exchange carriers (CLECs). CLECs operate as a reseller of the incumbent local exchange carrier’s telecommunications services, or enters the market as a facilities-based provider. The diagram below shows the process flow of a Directory Listing Change Request Form (WP-3235) when a CLEC is involved. (See page 25.0.34)

White Pages Preparation (WP-3235)

White Pages - Form Preparation

General

The WP-3235 is a three-page form which is forwarded to the appropriate White Pages Coordinator.

A separate WP-3235 form is required for both local and foreign numbers for:

- Each firm name
- Each directory where a listing is being added, deleted, or changed

For non-telephone company regulated White Pages, the form is sent to the local White Pages Coordinator for both foreign and local listings.

For telephone company regulated White Pages, the form is sent to the Local White Pages Coordinator if all the listings are local. For all foreign listings, or a combination of local and foreign, the form is sent to the Foreign Listing Coordinator.

Processing Requests

When a CMR handles the White Pages for an advertiser the following steps should be followed:

1. Determine the Publisher of the directory by referring to Rates & Data.
2. Refer to the White Pages Information publication or Rates & Data to determine which form the Publisher requires for the establishment of the listing, WP-3235 or NA-2000.

If the WP-3235 form is required, have the advertiser prepare a letter of authorization to send to the CMR appointing them the agent in charge of their White Pages program.

Change in Address Sequence

The physical move, installation or disconnect of telephone service cannot be made using the WP-3235. The relocation of telephone service is the client's responsibility and must be handled directly with the Business Service Center of the telephone company involved.

The CMR can arrange to change the listed address, such as the street address to the building name, shopping center or plaza name or vice versa.

NOTE: Some Publishers might restrict the use of shopping center names or plazas.

Enter the existing listing in the remove section of the form and indicate the line(s) changing by an asterisk (*) in the "change" column to the left of the detail information. Enter the listing and new address to be reflected in the insert section and indicate with an asterisk (*) all of the changed lines.

Remove Entire Listing

If the entire listing is to be removed and the listing is in a telephone company regulated directory, provide a clear photocopy of the listing and enter an asterisk (*) on every line that needs to be removed. If the listing is in a non-telephone company regulated directory and was established via the national order form (NA-2000), remove the listing via the NA-2000 form.

White Pages Preparation (WP-3235)

Classified Heading Change for Service Regular Listing (SRL)

Free classified listings may be changed on the National Yellow Pages Advertising order form (NA-2000), when acceptable by the publisher. The CMR should refer to the LSA White Pages Information Manual to determine how the publisher handles SRL activity. The manual is available for download at www.localsearchassociation.org.

If the client does not have a National Yellow Pages program, then the White Pages Listing Request form (WP-3235) will be used.

A request to change a free classified heading can be the only request on the form or it can be combined with a request to make changes in the White Pages Listings.

WP-3235's must be received prior to Hibu Inc National Close on all directories. WP-3235's should be submitted for local and 800 numbers. A White Page listing is considered local when it appears in the coverage area designated by Yellowbook. See our CMR website at www.nationalsales.yellowbook.com for a town list. If the town is not listed in our town list, the listing will not be local to our directory, and unless it has a toll-free number, it will not appear.

If you are purchasing paid White Pages advertisements, these udacs must be submitted on your national order. Captions with paid advertising MUST be submitted on the national order. You can not submit a 3235 for paid advertising or foreign listings. These must be submitted on the national order.

We receive a high volume of 3235's, and due to time constraints with our production schedule, we are unable to confirm when a 3235 has been processed. Because Yellowbook is not a telephone company publisher, we cannot issue Service Order (SO) numbers.

If you have questions, please contact your National Account Manager or call the Yellowbook National hotline at 800-937-5285. Be sure to check out our CMR website at www.nationalsales.yellowbook.com. Call 610-731-2530 for a user name and password.

System changes no longer allow customers to put their SRL on YALs (for YP only) or an additional Listing (custom Listing in WP carried over to YP). The customer's free listing must be established under the main listing. SRLs that are established on a YAL or additional listing will be changed to match the main listing and we will send an advice of the change. If the main listing agrees with the YAL or the Additional Listing, you will receive an advice that we have removed the 'Y' in the special instruction field.
